

THING A MA JIG

<u>DOODADS</u>	"Clickity clack, Clickity clack"
<u>DINGFORD</u>	"Whiz, bang, boom"
<u>FREEDISTANT</u>	"Whoosh, whoosh"
<u>HYGORICKY</u>	"Snap, crackle, pop"
<u>SCATEREEKUS</u>	All sounds together

Very few families can get along without a thing-a-ma-jig. While they can be purchased already assembled in a wide range of shapes, sizes and colors, they are relatively easy to put together yourself. Just follow these EASY directions and you'll have yours put together in no time at all!

The **DOODADS** of the thing-a-ma-jig kit are enclosed in a plastic gizmo and stapled with the yellow assembly **DINGFORD** to a **FREEDISTANT**. The assembly **DINGFORD** may be placed upon any corrugated doomaflatchy or us the **FREEDISTANT** to assemble your **DOODADS**. Carefully remove the plastic gizmo of the **DOODADS** from the **FREEDISTANT** and lay out the **DOODADS** on a clean acka-marackus. Learn the name of each part of the **DOODADS** by comparing them with the assembly **DINGFORD** and assemble the **DOODADS** in the correct order.

You will also need a drill with a 3/16" gizflunky for the **HYGORICKY** and a pair of pliers. Using a watchafiggle, carefully punch 1/8" whatnots through the assembly **DINGFORD** and **FREEDISTANT** where each **HYGORICKY** goes. These whatnots are openings for the hoosis **HYGORICKY** used to fasten the **DOODADS** together.

Now hammer the fammis to the hootenany and under the **HYGORICKY**, as shown on the **DINGFORD**. If the order is reversed, the thing-a-ma-jig will not operate properly and **SCATEREEKUS** will result!
